

## Product Description

**MCX 122670**  
**Antimicrobial Masterbatch**  
**Nylon (PA)**

---

**Product Code ..... MCX 122670**

### Description

MCX 122670 is a 25% active silver-based antimicrobial masterbatch formulated specifically for use into nylon (PA) compounds. This additive achieves high performance at relatively low concentrations with minimal affect to physical properties and is light resistant and stable with little or no discoloration with age.

*Antimicrobial compounds can help protect parts against staining, odors, and degradation due to fungi, mold, yeasts, mildew, algae and other microbes. This material does not protect users or others against food-borne or disease-causing bacteria. For more information please reference EPA Pesticide Registration Notice 2000-1.*

### Composition

Antimicrobial ..... 25% Silver-based  
Resin/Carrier ..... Proprietary

### General and Technical Data

Recommended letdown ..... 2% to 8% depending on desired efficacy  
FDA applications ..... 2% to 6%  
Pellet size ..... 60 pellets/gram  
Form supplied ..... Pellets  
Application ..... Injection Molding/extrusion/film  
Heat stability (additive) ..... 500°C  
Packaging ..... Gaylord, drum, or bag

### Regulatory

Components of MCX 122670 are compliant with EPA and/or FDA regulations for food contact applications and are RoHS compliant.

This information is intended to be used only as a guideline for designers and processors of modified thermoplastics. Because mold or die design and processing is complex, a set solution will not solve all problems. Observation on a "trial and error" basis may be required to achieve desired results.

Data are obtained from specimens molded under carefully controlled conditions from representative samples of the product described herein. Properties may be materially affected by molding techniques applied and by the size and shape of the item molded. No assurance can be implied that all molded articles will have the same properties as those listed.

No information supplied by RTP Company constitutes a warranty regarding product performance or use. Any information regarding performance or use is only offered as suggestion for investigation for use, based upon RTP Company or other customer experience. RTP Company makes no warranties, expressed or implied, concerning the suitability or fitness of any of its products for any particular purpose. It is the responsibility of the customer to determine that the product is safe, lawful and technically suitable for the intended use. The disclosure of information herein is not a license to operate under, or a recommendation to infringe any patents.
