COLOUR THAT MOVES YOU!

2023

EXPERIENCE

Welcome to Hueforia!

We are your single source for consistent, beautifully coloured thermoplastics.

Hueforia can help you with colour and material selection, then produce a coloured thermoplastic that meets the technical specifications of your product. We offer a wide range of standard thermoplastic colours, universal colour masterbatches, specialty performance additives, custom colours, and special effect compounds. With more than 30 years of experience, you can rely on the Hueforia team for all your coloured thermoplastic needs!

Why is colour so important to product design? Colour can help you...

- **connect** with your target audience,
- evoke **positive feelings** toward your brand,
- **communicate** information, and
- **influence** purchasing decisions.

To spark your imagination, we've curated four distinct collections to inspire and enhance your product design! From the earthy tones of Vibrato to the classic hues of Tempo, and loud, bright colours of Forte to the dreamy pastels of Allegro... together, we'll find the perfect colour for your product.

vibrato COLLECTION

The nature-inspired colours of the **Vibrato** collection bring outdoor beauty and vibrancy to home goods and interior spaces.

tempo COLLECTION

The classic colours of the **Tempo** collection set a sophisticated, powerful tone for automotive components, appliances, and hard goods.

forte COLLECTION

The exciting hues of the **Forte** collection inspire energy and optimism in product designs for electronics and sporting goods.

allegro COLLECTION

The dreamy pastels of the **Allegro** collection bring serenity and comfort, perfect for medical devices and healthcare applications.

vibrato

COLLECTION

Inspired by the gentle hum of life reverberating throughout the woods, the natural hues of **Vibrato** radiate a sense of comfort and reassurance. When incorporated into your product, these colours evoke feelings of certainty and reliability. Pearlescent or matte effects elevate these colours, providing even more drama to your product design.
